TROPICAL ARCHITECTURE

SUMMER SCHOOL 2026

KEY FACTS

- Dates: 1 – 29 August 2026
- Location: Bali, Indonesia · IDB Bali Campus & field sites
- Duration: 4 weeks
- Credits: up to 12 ECTS / 6 US credits
- Language: English
- Participants: Architecture & design students, professionals & enthusiasts
- Fees: €1,850 (Early) – €2,050 (Regular)
- Outcome: Portfolio project, certificate & transcript

The Tropical Architecture Summer School is not just another course – it's a once-in-a-lifetime experience. Four weeks in Bali where you'll dive into tropical design through lectures, hands-on workshops, and field excursions. Guided by guest lecturers and renowned studios, you'll develop a portfolio project that blends innovation with tradition. This is where you learn, create, and live the most inspiring summer of your studies – and leave with skills, connections, and memories that last far beyond the island.

YOUR SUMMER AT A GLANCE

WEEKLY SCHEDULE HIGHLIGHTS

-
- 2 days of lectures & design studios
 - 2 days of excursions & workshops
 - Fridays for flexible program: project work, workshops or free time
 - Weekends off to explore Bali
 - Welcome dinner at the start, graduation ceremony & certificate handover at the end

WHY STUDENTS LOVE THIS PROGRAM

-
- They don't just learn – they design in real tropical contexts
 - Every week brings a new landmark project or studio visit
 - The final portfolio project is something they actually show at reviews & job interviews
 - They leave with credits, a certificate, and memories of a lifetime

WHAT YOU'LL STUDY

4 WEEKS • 5 MODULES • 1 LIFE-CHANGING DESIGN EXPERIENCE

Each week focuses on one module – from Balinese tradition to sustainable green design – and is guided by your ongoing Studio Project. Lectures, workshops, and excursions all flow into your group's concept, so you learn by doing and create together. It's a once-in-a-lifetime chance to design where climate, culture, and creativity meet.

Here's what's waiting for you

THE MODULES

BALI LANDSCAPE & ARCHITECTURE

Explore how temples, villages, and traditions shape tropical architecture. Learn how vernacular wisdom guides design in harmony with climate and culture.

RESORT & HOSPITALITY DESIGN

Dive into the design of resorts and guesthouses. Study layouts, indoor-outdoor flow, and guest experience in a tropical context.

GREEN DESIGN

Learn from Bali's bamboo pioneers and eco-resorts. Discover how renewable materials and low-impact techniques redefine sustainable design.

THE MODULES

INTERIOR DESIGN & AMENITIES

Work with natural materials and detailing to design sustainable, comfortable interiors. Balance cultural authenticity with modern needs.

STUDIO PROJECT “EAST-MEETS-WEST”

Bring everything together in one group project. Create a portfolio piece that shows your skills in tropical and sustainable design – and makes a lasting impression for your studies and career.

DOWNLOAD FULL COURSE DESCRIPTION

This program equals **12 ECTS (approx. 6 US credits)** and combines lectures, design studios, site visits, and hands-on workshops in a unique blended learning format. Students receive an official Certificate and Transcript, recognizing both academic achievement and practical experience – and take home not just credits, but a portfolio project and unforgettable memories.

OUTDOOR CLASSROOM

WORKSHOPS & EXCURSIONS

Bali is your campus – and your classroom under the sky. Learning happens where architecture lives: in bamboo studios, eco-resorts, and traditional villages. Each day, the island itself becomes the setting for discovery – from hands-on workshops in design spaces to explorations of cultural heritage sites. This immersive environment makes every lecture, every visit, and every conversation part of your learning journey.

WORKSHOPS & EXCURSIONS

TRADITIONAL ROOTS

Step into Bali's heritage: explore palaces and villages, join ceremonies and cultural workshops, and see how tradition continues to inspire tropical architecture.

RESORT & HOSPITALITY DESIGN

Eco-luxury meets tropical modernism. Guided site visits showcase iconic projects in hospitality and resort design – from coastal escapes to visionary masterplans

GREEN DESIGN & BAMBOO

Discover the world-famous Green Village, Ibuku, and Bamboo Pure. Learn how bamboo and sustainable materials shape the future of eco-communities – with insights from Bali Eco Mantra and Asali's bamboo workshops.

INNOVATION & INTERIORS

Where tradition meets technology: experiment with digital tools, visualization, and interiors. Push your project ideas forward in hands-on design sessions, with 3D and AI workshops guided by experts.

WHY BALI?

BECAUSE SOMETHING SHIFTS WHEN YOU'RE HERE.

ISLAND MAGIC

There's a reason people fall in love with Bali – and it's not just the beauty. Life here flows differently: more presence, more connection, more depth. Bali slows you down and wakes you up at the same time. It's the perfect place to study, to grow, and to rediscover what really matters. At the same time, Bali has become the global hub for tropical and sustainable design. Here, learning merges with culture and innovation – creating an experience you won't find anywhere else in the world.

MORE THAN A STUDY DESTINATION

Bali is more than just a location. It's a rhythm, a mindset, a living invitation to grow. Here, study becomes a full-body experience – surrounded by nature, tradition, and a culture that inspires presence, balance, and curiosity.

A CULTURE OF BALANCE

Daily offerings, temple visits, and a deep respect for community and the environment shape everyday life. Balinese culture teaches harmony not through textbooks, but through lived experience – something no lecture hall in the world can replicate.

SPACE TO BREATHE AND BECOME

Here, education doesn't feel rushed. Bali gives you space to reflect, recharge, and reconnect – with your ideas, your craft, and your goals. This environment supports not only academic growth, but personal transformation.

GLOBAL VIBES, REAL CONNECTIONS

You'll join a truly international group of students, all drawn to this once-in-a-lifetime experience. What starts as a classroom quickly becomes a community – sharing knowledge, adventure, and support throughout the journey.

YOUR HOST

IDB BALI – INSTITUT DESAIN & BUSINESS BALI

- Private university specialized in Design & Business

POSITIONING OF THE TWO ACCOMMODATION OPTIONS

For the Tropical Architecture Summer School 2026, you can choose between two different living experiences:

Bestah Co-Living is only a few minutes from campus, right in Denpasar's Renon district. This central location makes it especially convenient for daily classes, with shops, local eateries, and Sanur beach just a short ride away. It's perfect if you prefer quick access to campus and an authentic, practical Bali lifestyle.

Riverside Retreat is about 40 minutes from campus, located in the popular area of Canggu. While the commute is longer, many students enjoy living here because of the buzzing Bali lifestyle – beaches, cafés, restaurants, bars, and clubs are right at your doorstep. It's the ideal choice if you want to combine your studies with the island's most famous hotspot.

DIFFERENT LOCATIONS, THE SAME BALI EXPERIENCE - CHOOSE THE SETTING THAT SUITS YOU BEST

LIVING THE ISLAND LIFE

EATING IN BALI

From colorful smoothie bowls to spicy nasi goreng – food in Bali is fresh, flavorful, and affordable. Most students eat out daily, but grocery shopping is also easy: local markets, minimarts, and international supermarkets are all nearby. Whether you're grabbing fruit from a street vendor or stocking up at Pepito, eating well is simple and budget-friendly.

GETTING AROUND

The easiest way to get around is by scooter. It's fast, flexible, and gives you the freedom to explore hidden beaches, rice fields, and cafés all around the island. You can rent one for around €50/month. Not into riding? No problem – apps like Gojek (the local Uber) take you anywhere you need to go, quickly and affordably.

LIVING THE ISLAND LIFE

FREE TIME & LEISURE

When class is over, Bali turns into your playground. Afternoons and weekends are for surfing, yoga, or just hanging out by the beach with friends. You can wander through temples, explore rice terraces, or take a scooter ride to hidden waterfalls. Evenings often mean sunset at the ocean, local food markets, or cafés buzzing with international creatives.

WEATHER & SEASONS

August is the perfect month to be in Bali. Dry season means warm, sunny days (around 28–32 °C) with very little rain – ideal for excursions, workshops, and weekends at the beach. Evenings are pleasant and breezy, making it the best time of year to experience the island’s outdoor lifestyle.

WHAT OUR STUDENTS SAY

My experience studying in Bali really can't even be described in words. It's mind blowing how immersive the program has been. We learned so much about the Balinese heritage and culture. And so taking everything that I've learned and applying it back in the States is going to be amazing for me and my design business. I'm really excited about that. I would recommend the Study in Bali program to anyone.

INDIA GEDE ARISTA
FROM THE USA

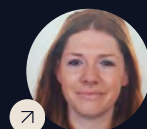

Thanks to you for giving me the opportunity to be part of this journey! Just WOW!! Everything was amazing!! ❤️

SONJA
FROM MACEDONIA

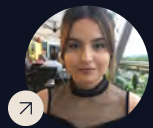

We learned a lot about the difference between Eastern & Western culture. The summer school brings together a group of students from all over the world, all with different backgrounds. It is great to learn in such a nice environment.

KIRSTEN
FROM THE
